Electric eel
Swimming through the seas of the unreal
Trying to land a deal for you to reinvent the wheel
Electric eel

Electric eye
Pull the plug, watch him die
I did not even cry, I guess you know the reasons why
Electric eye

Was I supposed to go down with the ship?
I was not the captain, it was not my trip
Sailing to the moon with Alice the goon
Oh yeah!

I'm Popeye the sailor man
I live in a garbage can!
Oh maybe you got it, take it away
