Hey you boy, think that you know what youre doing  
You think youre gonna set things to rights  
Youre just another picture on a teenage wall  
Youre just another sucker ready for a fall

You gotta  
Fight from the inside  
Attack from the rear  
Fight from the inside

You cant win with your hands tied  
Fight from the inside  
Fight from the inside  
Right down the line -

Hey you boy think that you know what youre doing  
You think that out in the streets is all free  
Youre just another money-spinner tool  
Youre just another fool

You gotta  
Fight from the inside  
Attack from the rear  
Fight from the inside

You cant win with your hands tied  
Fight from the inside  
Fight from the inside  
Right down the line -
