Standing on the dark canal
By the gas works
Celebrate the cops come by
When the love hurts

And the medicine man here 24/7
You can get it fast in Armageddon
Everyone on their way to heaven
Slowly

Call for prayer
Has come around here

In the morning
We wash our faces go to work
There is no warning

That it all gets better when life is straight
It's bigger than you
The Welfare State
We'll keep singing, "It's not too late
For you"
