This is the way, I always dreamed it would be
The way that it is oh no, when you are holdin' me
I never had a love of my own
Maybe that's why when we're all alone

I can hear music
I can hear music
Sounds of the city baby
Seem to disappear

Oh well, I can hear music
Sweet, sweet music
Whenever you touch me baby
Whenever you're near

Lovin' you, it keeps me satisfied
And I can't explain, oh no, the way I'm feelin' inside
You look at me, we kiss and then
I close my eyes and here it comes again

I can hear music
I can hear music
Sounds of the city baby
Seem to disappear

Oh well, I can hear music
Sweet, sweet music
Whenever you touch me baby
Whenever you're near

I can hear music
Sweet, sweet music
Whenever you touch me baby
Whenever you're near

I can hear music
Sweet, sweet music
Whenever you touch me baby
Whenever you're near
