(Album: Complete Works, 1985)

"Yeah yeah - ha ha
Let's go - let's go - let's go

Yeah, I took my baby dancing
To see a heavy band
I never saw my baby till the encore
She had the singer by the hand

I didn't wanna cry 'cos I had to be cool
I didn't wanna tell you that you're much too cruel
Did you have to run off with that doggone fool

All I gotta do is think about you
Ev'ry night and day - I go crazy
All I gotta do is get my hands on you
Gotta stay away from me baby

Hey, I wouldn't mind the postman
If the neighbours didn't know
Or the gas man, electric man, the man who fixed the
car
I'd have to let it go

But you had to bring me down for a rock 'n' roll clone
Leave me like a sucker standing all alone
You just had to run off with that rolling stone

Go ahead fool

All I gotta do is think about you
Ev'ry night and day - I go crazy
All I gotta do is get my hands on you
You gotta stay away from me baby
So I ain't gonna go see no Rolling Stones - no more - no
more
I don't wanna go to see Queen - no more - no more
I ain't gonna go see them Rolling Stones - no more - no
more
I don't wanna go and see Queen - no more - no more -
no more - no more

Yeah yeah crazy yeah

I don't wanna hurt you
But you been a hurting me
But you know that I'll be watching
Rolling on the floor - next time you're on the T.V.

Had enough of your pretending that you know where
it's at
Come on to all the boys like a real small brat
You think I'd nearly let you get away with all that
No way babe

All I gotta do is think about you
Ev'ry night and day - I go crazy crazy
All I gotta do is get my hands on you
Betta stay away from me baby

Ooh you got ya hands got to
Got to stay away from me baby
Crazy crazy crazy baby yeah crazy crazy crazy crazy
yeah
Crazy crazy crazy crazy crazy crazy crazy crazy crazy
crazy crazy
Yeah crazy crazy"
