(Album: The Works, 1984)

"This is the only life for me - yeah
Surround myself around my own fantasy
You just gotta be strong and believe in yourself
Forget all the sadness 'cause love is all you need
Love is all you need

Do you know what it's like to be alone in this world
When you're down and out on your luck and you're a
failure
Wake up screaming in the middle of the night
You think it's all been a waste of time,
It's been a bad year.
You start believing everything's gonna be alright
Next minute you're down and you're flat on your back
A brand new day is beginning
Get that sunny feeling and you're on your way (way)

Just believe - just keep passing the open windows.
Just believe - just keep passing the open windows.

Do you know how it feels when you don't have friend
(friend)
Without a job and no money to spend
You're a stranger

All you think about is suicide,
One of these days you're gonna lose the fight.
You better keep out of danger - yeah.
That same old feeling just keeps burning deep inside
(inside)
You keep telling yourself it's gonna be the end.

Oh - get yourself together.
Things are looking better everyday (day)

Just believe - just keep passing the open windows.
Just believe - just keep passing the open windows.

This is the only life for me - yeah
Surround myself around my own fantasy

You just gotta be strong and believe in yourselves
Forget all the sadness 'cause love is all you need

Just believe - just keep passing the open windows.
Just believe - just keep passing the open windows.

You just gotta be strong and believe in yourselves
Forget all the sadness 'cause love is all you need yeah
Love is all you need
Oh baby love is all you need

Just believe - just keep passing the open windows.
Just believe - just keep passing the open windows.

Just keep passing the open windows.
Just keep passing the open windows.
Just keep passing the open windows.
Just keep passing the open windows.
Just keep passing the open windows.
Just keep passing the open windows.
Keep passing the open windows."
