Who said that my party was all over, huh, huh,
I'm in pretty good shape,
The best years of my life are like a super nova,
Huh, huh, perpetual craze, I said that
Everybody drank my wine -you get my drift,
And then we took a holiday on Khashoggi's ship - well,
We really had a good good time they was all so sexy
We was bad, we was blitzed,
All in all it was a pretty good trip,
This big bad sucker with a fist as big as your head,
Wanted to get me, I said go away
I said kiss my ass honey,
He pulled out a gun, wanted to arrest me,
I said uh, uh, babe,
Now listen no-one stops my party,
No-one stops my party,
No-one, no-one, no-one stops my party,
Just like I said,
We were phased, we was pissed,
Just having a total eclipse,
This one's on me so let us do it just right,
This here one party don't get started 'till midnight,
Party to the left -
Party to the right -
Left - right
No-one stops my .
