Listen - trapped again

Love on a lead is what you need

Love on a leash is what you wish

Love on a tightrope is what you get

Love on a steep slope you ain't seen nothing yet

When you smile, that wide wide smile

That tiger smile, I'm trapped again

Be my dog, be my pet, like a nervous tic

You just won't quit, like a nervous tic you just won't quit

You don't need a doctor, you need a vet

And when you laugh, your crazy laugh

That wild cat laugh, I'm trapped again

Love on a tightrope, love on a tightrope

Our love's on a steep slope

Love on a tightrope

No don't give up hope 'Cos when you wish upon a star

Makes no difference who you are

Don't give up hope our love's on a tightrope

Like a tiger cat you're where it's at

Like a crocodile along the Nile

So strange and wild, some kind of reptile

Love on a lead is what you need
And when you smile, that wide wild smile
That tiger smile, I'm trapped again
Trapped again
They say never bite the hand that feeds
Just one look and my heart bleeds
Love on a tightrope, love on a tightrope
You know, our love's on a steep slope
Love on a tightrope
No don't give up hope, 'Cos when you wish upon a star
Makes no difference who you are
Don't give up hope our love's on a tightrope
Animal eyes - like a real good time
Animal lips it's a perfect crime
Animal hair it just ain't fair
Like an animal
You're an animal
