Hush now don't you cry
Wipe away the tear drops from your eye
You're lying safe in bed
It was all a bad dream
Spinning thru your head
Your mind tricked you to feel the pain
Of someone close to you leaving the game
Of life

So here it is, another chance
Wide awake, you face the day
Your dream is over...
Or has it just begun?

There's a place I like to hide
A door way that I run thru in the night
Relax child, you were there
But only didn't realize, and you were scared
It's a place where you will learn
To face your fears, retrace the years
And ride the whims of your mind
Commanding in another world
Suddenly, you hear and see
This magic new dimension

I -- will be watching over you
I -- am gonna help you see it through
I -- will protect you in the night
I -- am smiling next to you .. in Silent Lucidity

[Visualize your dreams
write them into permanent form
if you consist in your efforts
you will achieve
dream control

control

how is that, better?

dream control

dream control
help me]

If you open your mind for me
You won't rely on open eyes to see
The walls you built within
Come tumbling down, and a new world will begin
Living twice at once you learn
You're some from pain in the dream domain
A soul set free to fly
A round trip journey in your head
Master of illusion, can you realize
Your dream's alive, you can be the guide but...

I -- will be watching over you
I -- am gonna help you see it through
I -- will protect you in the night
I -- am smiling next to you ..
