Words and music by brian may and tim staffell

Know what I said when I saw you crying
Hang on thats folly
I was reeking the head I believed your lying
Youre just a bad memory
My life was going to be better
My why could I never ever see shed step on me
Well I talked to your friend just the other day
I was gonna look and raise a smile
And she hid a smile and she aint like you
Been asleep from all the journeys a little while
My life was going to be better
My why could I never ever see shed step on me
Step on me,step on me,step on me
Now its so good I wont waste my time
On a two year old picture of you
Oh now that youre gone everythings fine
But you probably think that were through
My life was going to be better
My why could I never ever see shed step on me
Step on me,step on me,step on me
Now its so good I wont waste my time
On a two year old picture of you
Oh now that youre gone everythings fine
But you probably think that were through
My life was going to be better
My why could I never ever see shed step on me
Never ever see shed step on me
