This gasoline makes one fine drink  
All I need is trouble  
Flicker in the sunlight dawn  
They'll find my dead body cold  
I used to wither just like winter  
And now all I am is useless

So now is the time  
To say all I wished I could have said  
But I can't get my tongue out  
And I can't get my sword to work  
I'll just talk loads of bullshit anyhow

Your mother in torn garments  
Like Jesus Christ denied  
Blood in all her pockets  
And you inside her eyes

Let's shut it down

Let's kill the lights
