People laughing, pointing at you
They make the jokes and laugh and about
Though I never did those things

They will make fun of you but not me
They will make fun of you but not me
No, I never got it at all

Laughing with you
Laughing with you
Laughing with you
Not at you, not at you, not at you

People laugh and pointing at you
They make though jokes and laugh and about
Though I never did those things

They will make fun of you but not me
They will make fun of you but not me
Oh, I never got the joke

Laughing with you
Laughing with you
Laughing with you
Not at you, not at you, not at you

They will make fun of you but not me
They will make fun of you but not me
They will make fun of you but not me
Not me, not me, not me, not me, hey, hey

Laughing with you
Laughing with you
Laughing with you
Not at you, not at you, not at you
