I need a piss,
Wanna hate,
Fuck it up, come

My love,
Eat your meat
Keep your teeth, run.

You've lost me,
You caused me
You taught me of me in the end

We're bad
What we do
Stupid fools

You wanna get boned
You wanna get stoned
You wanna get a room like no one else
You wanna be rich
You wanna be kitsch
You wanna be the bastard of yourself
You wanna get burned
You wanna get turned
You wanna get fucked inside out
You wanna be ruled
You wanna be fooled
You wanna be a woman like a man like a woman like a
man

A woman like a man like a man like a woman like a
man, you like a man.
(I'll get a cheaper ticket next time)
Woman like a man woman like a man like a woman like
a man woman like a man
(I'll get a cheaper ticket next time)
A woman like a man like a man like a woman like a
man, woman like a man
(I'll get a cheaper ticket next time)
Woman like a man like a man like a woman like a man
like a man

(Really wasn't worth the ride)

Need a hit
Wanna wait
Suck it up come

My love,
Each and me,
Keep your feet run

You reach me
You bleach me
You teach me we're familiar

We're bad
What we do
Stupid fools

You wanna get boned
You wanna get stoned
You wanna get a room like no one else
You wanna be rich
You wanna be kitsch
You wanna be the bastard of yourself
You wanna get burned
You wanna get turned
You wanna get fucked inside out
You wanna be ruled
You wanna be fooled
You wanna be a woman like a man like a woman like a
man

A woman like a man like a man like a woman like a
man, woman like a man.
(I'll get a cheaper ticket next time)
Woman like a man like a man like a woman like a man
like a man
(I'll get a cheaper ticket next time)
Like a man like a woman like a man like a woman like a
man, like a man
(I'll get a cheaper ticket next time)
Woman like a man woman like a man like a woman like
a man like a man
(Really wasn't worth the ride)
