### Chorus

All rise for me (all rise for me all eyes on me, watch my progression court is in session)  
Ain't nobody stops my flows as if you didn't know  
All eyes on me (all rise for me all eyes on me, watch my progression court is in session)  
I've been doing it for sometime, i'm back to blow ya mind!

### Rap (verse 1)

Court is in session i'm the judge jury and the prosecution, my word cos mine conjugus  
Ain't no need for confusion i'm here to stay me in the rap game party together like fusion  
I wanna talk to Illuminati wanna let you ladies whose first hits screen gets me bar  
i was dedicated to the party touring oversea spreading our culture to different nationality  
From MC like calories what ya need to do is pay homage and make some sister challenge me  
like i said just me on wax i'll be of value and it'll happen when you least expected exactly  
If ain't rough i can do without it and some of you all MCs in hiphop just making the game crowded  
Let's play a little game of elimination or detonation, separate the rack like segregation.

### Chorus.

All rise for me (all rise for me all eyes on me, watch my progression court is in session)  
Ain't nobody stops my flows as if you didn't know  
All eyes on me (all rise for me all eyes on me, watch my progression court is in session)  
I've been doing it for sometime, i'm back to blow ya mind!

### Rap (verse 2)

You know whats up choice stay on my piece you ain't no rapper you just play one on TV or radio and CD  
Acting like you wanna see me but really cheeky geek i ain't see me  
Check out my whole unit row this new kid study my scripts like the dead sea scroll  
My M.O i'm in the back of a stretch land-cruise limo paying customer shot dollar dicussing

You see i am trying to hear nothing so i'm back to recap  
like Elmino, winds blow, clouds thunder spins the earth  
off its axis

Me slash rapper, slash actress, slash if you trying to  
front we get your ass kicked, we used P.O.W torture  
tactics

who trying to get at us, cos my friends i feel pleasure in  
your pain like i should never

i should bronx my pimp we should be hanging

platinum, pix i'm stackin' em

classics from me is automatic, i keep' em hitting in the  
attic,

ladies rock to this, fellas on the floor grab your crotch  
to this, watch my progression court is in session.

Chorus.

Rap (verse 3)

Flog your interest, pay attention to every sentence, all  
rise for me, all eyes on me,

Send a shout-out of respect to all my people living,  
check the check it's gonna be alright

I rule in favor of the unit with a flavour, we make moves  
this major, this style coming like a pager,

And we don't need that feedback, keep that, i know  
your crew is off the hook, we off the meat-rat.

See that i know you wanna be like us real, already we  
that you can't be that, believe that,

Make you jump outta your gatters and boots, sweats  
and limo suits, we winning my records on the table  
spinning,

All our pockets getting fat while you thinning, you can't  
fade us we've been hustling since beginning,

Put you hands in the air even if you hate us, we master  
of profession, court is in session.

Chorus till fade.
