What this madness in my mind
Never really knew love before this time
Boy you'll take me where I've never been before
Now I want to explore more and more, just
Give me your love, Give me your love
Give me your love, Give me your love,
Give me your love, Give me your love,
Give me your love, Give me your love,
I'm your woman, you're my man,
Doesn't matter if the world can't understand
I know if you stay right here by my side
I'll have no fear; I'll never run and hide just
Captive my soul, hold me
When I'm down I need your love to console me
Some weakness tells me when the morning comes
It's hard for me to try to see you're not the one
For the love of you I just might just do most anything
It's the sensation the slightest touch can bring
Baby I adore you this is not a fling
With every breath I sing for you to
(Chorus)
When I was a very small child
my mother told me
Hold on to the things that you love
And never let them go
Love is too precious to be wasted
And that is why I want you to know
What's this madness in my mind I really new love
before this time
Boy you'll take me where I've never been before.
Now I want to explore more and more and more
(Chorus)
