

Damiera **"Lessons"**

Visit "[Lessons](#)" on MotoLyrics.com

Let's stay til the fox takes life to flight
It makes sense til you just adjust the lights
It frustrates, it frustrates and lessens lessons
Crawl around til your knees drop out to shreds
And mind leaves you as we're all dressed up to go
It illustrates, illustrates how lessons lessen
I'll stand wide awake
Cause this feels like
Home act asleep and drawn in with all the things that
never lasted
Attracting hope dissolving through time
Dissect your fears neglected by the sunlight
Obsessions made from indulgent waste-of-times
Open up this door
Offensive be the lifeless with all direction aside
Stay away from this life signal
While we plan escape from whats meaningful
What life has always left us with
Gracefully flooding ability
The lesson is deafening almost feel i could
Gracefully flooding ability
The lesson is deafening almost feel i could
I forgot this feeling it just hit
I forgot this feeling it just hit
Dissect your fears neglected by the sunlight
Obsessions made from indulgent waste-of-times
Open up this door
Offensive be the lifeless with all direction aside
Now we collide and decide if we were meant to stand
Like stones sounds never found out of context
A conversation fit
For the end
