Dwelling in your own cell  
A prisoner of your own  
We are all but perfect  
Be conscious in improving  
Life is more difficult with u  
But what can I do?  
Lets just be thankful what life has to offer  
I can tell what's in your mind  
Better speak

Before u cry and whine about things  
Make sure your not making a fool out of yourself

Can u handle the truth?  
We can't stay like this  
U almost had me there  
Santa maria  
I'm just taking what is rightfully mine  
I'm just wondering,  
How come u became so selfish?  
I can't tell what's in your mind  
So better speak  
Before u cry and whine about things  
Make sure your not making a fool out of yourself

Can u handle the truth?  
We can't stay like this  
U almost had me there
