

Question Mark "Imagine Yourself"

Visit "[Imagine Yourself](#)" on MotoLyrics.com

Imagine yourself prisoned fighting no way out of the
tension
Wrecking lives, testified the court of judges
That decide for your whole life
Take me place your mark on my heart but I'll never fall
apart!

Resistance is the key to maintenance of yourself
Stand your ground take the lead, brace yourself

Millions of lives dedicated to an unknown cause
Slaves suppressed by the lies they dream of what it
was to be free
Humans are meant to, think for themselves
No more slaughter of human race by absolute control

Pictures flashing, confronting of what those tyrants did
to us
Did no one realize the blood on their hands, in their
eyes?
Please realize this time

Imagine yourself, chain and trapped for the profit of
one man
Raise your fist against tyranny again

Monuments to remind us of the horror they have
passed,
Fear indoctrinated did the terrors and the wars
Policies to prevent falling into repeat, after 50 years
