

Question Mark "Never Let Go!"

Visit "[Never Let Go!](#)" on MotoLyrics.com

I don't understand, I don't want to know
Everything they mark as cool
All this non-sense all this non sense is trying to get
A hold on me

Destroy! Every single attempt to pull me in
Confront! The world with this disease
That's trying to pull us under in the mold
Rise up! Let's take our lives in our hand
Just hold on to what is real and never let go!

Let's look around! take a view on what is happening
Out there on the streets I see you wasted I see you
wasting
Everything you had or could've had
I swear to myself in silence this is my life
Won't let it be taken from my hand!

Just hold on to what is real and never let it go!
