

## Question Mark "No More Frustration"

Visit "[No More Frustration](#)" on MotoLyrics.com

Everyday we're forced to wake up in the same old  
world to again face  
The stupidity most of us live in Following ignorance not  
knowing what  
Their goal is Independency and popularity combined  
what's all of this  
Wanna run away from this can't live with it much longer  
what can be  
Done to eradicate this How must we go on pretend  
they're not here  
These people are insane Always screaming for  
attention wanna join the  
Group they don't belong to Never want to be seen  
alone, stupid  
Uncertainty makes them blind No more frustration,  
block your mind  
Don't let them intimidate just learn to live with it  
Don't let them drain you cause it won't change a thing  
You'll just grow tired they will be your dream,  
And then they'll eat your soul
