

Question Mark "Social Phrases"

Visit "[Social Phrases](#)" on MotoLyrics.com

What about the day we said goodbye you said you
were gonna miss me,
Now I haven't seen you since that day,
And all the friendship you said we had simple thrown
away!

I can't believe it all the social phrases you were holding
me on the string
Only needed me when you're alone
But still every time we ended up picking up the phone

You're always saying how you want to meet me in your
town
But every fucking time, I'm on the edge of coming
over,
You simply turn me down!

I don't need this anyway it's too much meaningless
effort every day.
I've got so much things to do, I'm not gonna keep
wasting my time with you

I've had it with you, now I'm through I'm NOT gonna
keep wasting my time!
