[Verse]

(Step up or back down)

Just leave me alone

'Cause I won't let you get away

With murder anymore

I'm trying to make you stay

'Cause I won't let you get away

(Sit down and shut up)

Just leave me alone

I think I'm losing sight of what I know

I'm trying to cut you lose

To see the end of you

[Chorus 2x]

Consider your options tonight

Just leave me alone

[Verse]

[Chorus]

[2x]

Consider your options tonight

'Cause I'm still waiting here (Just leave me alone)

Consider your options tonight

'Cause I'm...

[Chorus]

You keep falling for me

Keep falling for me

Keep falling for me

Keep falling for me
