[Verse 1]

Everybody think that I am nuts

By all means I am

'Cause I am crazy and out of my head

Everybody think that I'll flip out

By all means I will

'Cause I am unstable and I need help

[Pre-chorus]

Everybody knows (Won't get the best of me)

I will ignore

Those words they speak will not get the best of me

[Chorus]

Haven't we shed enough blood?

I know there's got to be something better

Haven't we lost what was ours?

What was ours (Ours, ours, ours)

[Verse 2]

Everybody thinks that I gave up

By all means I did

'Cause I am stupid and on the edge

Everybody thinks that I am wrong

By all means I am

'Cause I am unhealthy but I move on

[Pre-chorus]

[Chorus]

[2x]

Because we've got to figure this out

(We've got to figure this out)
