[Chorus]

Carry, bury me

Leave me or let me bleed

Please just choose

(You are wrong to believe anything that they say)

[Verse]

Did you think this could happen?

Another man extends his hand

And thinks there's nothing to hide

Did you think this contraption

Will leave you sad, left for dead

Bruised and waiting to die

[Chorus]

[Verse]

You are wrong to believe anything that they say

You are wrong to believe anything that they say

(Anything that they say)

You are wrong to believe anything that they say

(You are)

You are wrong to believe anything that they say

(You are wrong)

You are wrong to believe anything that they say

You are wrong

Have you figured it out

'Cause it seems

You've come so far

For you to be there
