Mr. Rodriguez said everithing I've given  
You're taking my money  
You're wasting my time  
Everything comes just as easy as it goes  
Everything runs in circles  
Everything is round  
And away, you're so far away  
Away, you're so far away  
I am so sorry Sir  
I can't place your call  
I'm unable to help you  
I'm just a machine  
I am an international operator  
I live far away  
I live in outter space

So please remind me of breathing  
Sometimes I forget that I'm living
