Damir - America Is Coming Home

Ah Ah America
Ah Ah America
Ah Ah America
Ah Ah America

My writing is my poetry
That's what means the world to me
I write about my point of view
I speak about what is true
I pledge allegiance to my crew
For you and me its all good but
I see the news and what they say
It's a shame the world's this way

I double think what's been happening
Choices are made by money these days
Can't point fingers is just the same
Change what's now, lets try again
From the sky I look down
Burning on the ground
Or from the sky I see the sun
Burning and blazing with love
Blistering my eyes I can surely cry
But if I cry it won't be sad
I see the future and something new
No secrets is what I ask from you
The world is crazy and so am I
But in my heart there are no lies

[Chorus]
America is coming home tonight (got it good)
Follow your dreams
Follow your light
America is coming home tonight
Open your spirit
Open your heart

America is coming home tonight (got it good)
Follow your dreams
Follow your light

America is coming home tonight
Open your spirit
Open your heart

I've lost my maps they've disappeared
When in doubt the stars guide me
I'm made of water that is true
I'm made of water then I can move
Keep it real - nothing bothers you
Life is me and I am life
Anywhere you want, let the water move you
Peace to the world
Peace to the world
Why do we act a fool and lose a few
Why do we act a fool and lose a few
Why do we act a fool and lose a few

The spirit knows and wants to grow
Leave no stone unturned
Move the heavens and the earth

There's winners and losers

So don't repeat the past
I don't wanna be neither
I just wanna last

[Chorus]
America is coming home tonight (got it good)
Follow your dreams
Follow your light
America is coming home tonight
Open your spirit
Open your heart

America is coming home tonight (got it good)
Follow your dreams
Follow your light
America is coming home tonight (got it good)
Open your spirit
Open your heart

My writing is my poetry
That's what means the world to me
I write about my point of view
I speak about what is true
I pledge allegiance to my crew
For you and me its all good but
I see the news and what they say
It's a shame the world's this way

America is coming home tonight
Follow your dreams
Follow your light
America is coming home tonight
Open your spirit
Open your heart

America is coming home tonight
Follow your dreams
Follow your light
America is coming home tonight
Open your spirit
Open your heart

America is coming home tonight (got it good)
Follow your dreams
Follow your light
America is coming home tonight
Open your spirit
Open your heart

America is coming home tonight (got it good)
Follow your dreams
Follow your light
America is coming home tonight
Open your spirit
Open your heart

Ah Ah America - Home of the brave.
Ah Ah America - Home of the brave.
Ah Ah America - Home of the brave.
Ah Ah America - Home of the brave.
(got it good)
