Make it double
It's time to get a bit crazy
This night is a devilish child
Come Lady, come get dizzy Hey!
Come with me honey rip this night
It's time to jump in a limousine
This time is brimming with life
It's a rush, you better get more kerosine
Come with me for a burning ride
Hey brother make it double! '
Cause who knows how long your can
Please don't ever mind the trouble just like me
This time I feel like Willy
Willy Shabby was a fatalist boy
When the end came he wasn't shilly shally
Hey! Come with me Willy boy just once more
Its time, go cross the river
Cross the Styx with the ferrymen's ship
The other world is just another bummer
If you pay at the devil's inn leave a tip
Hey brother make it double
'Cause who knows how long you can
Please don't ever mind the trouble
Live a life that's worth to spend
You just never know what's coming
Squeeze out every drop you can
If the bad fate cuts your running
You'll always have your rest
