boot party on your head, kick and stomp, until your
dead, you just
messed with the wrong bunch of punx, thought we
were just a
bunch of stupid drunx, now your face down in a pool of
blood
drive your face down into the mudd, you just made
your last
mistake, listen to your rib cage break, well our boots
got
steel toes, crack your skull, break your nose, kick your
teeth
right down your throat, stand around laugh and gloat
HAHAHA
boot party on your head kick n stomp till your dead
boot party on your head kick n stomp till your fuckin'
dead dead dead
