What's the point in asking why I do the things I do?
I don't know myself so how'm I gonna answer you?
Stupidity comes naturally, don't care if that sounds
dumb
Don't remember what I did last night but I bet I had
some fun
Don't ask why, don't ask, I don't even know
Don't ask why, don't ask why, I've just gotta go
Don't ask why, don't ask why, I don't really care
Don't ask why, don't ask why, Guess I'm not all there
Live fast, die young, and never reproduce
Cuz' the past is gone, the present sucks, and the future
ain't no use
I'm a hedonistic, narcissistic, pessimistic fool
Death and mindless violence are the only things I think
are cool
Don't ask why, don't ask, I don't even know
Don't ask why, don't ask why, I've just gotta go
Don't ask why, don't ask why, I don't really care
Don't ask why, don't ask why, Guess I'm not all there
What's the point in asking why I do the things I do?
I don't know myself so how'm I gonna answer you?
Stupidity comes naturally, don't care if that sounds
dumb
Don't remember what I did last night but I bet I had
some fun
Don't ask why, don't ask, I don't even know
Don't ask why, don't ask why, I've just gotta go
Don't ask why, don't ask why, I don't really care
Don't ask why, don't ask why, Guess I'm not all there
Don't ask why
Don't ask why
