"Hate On"

my minds out of control
its spinning downwards in a whirl
ive got a hate on full of spite
and I'm out to sodomize the world
I'm a hatred engorged member
of the human race
I'll take the world by the hair
and shoot my malice in your face
my lifes a crime of violence
thats just how its gotta be
I'm going to violate
every living thing i see
all you fucking hippes
I'll show you all what loves
really worth
I'll make you watch at gun point
while i rape your mother earth
don't care about your age, sex
race or class
your all gonna take it
up the ass
I don't care what you
do or what you say
you're just a fucking
cum dump anyway
