"Last Generation"

Visit "[Last Generation](#)" on MotoLyrics.com

It's not just a choice it's a responsibility
Let's not just keep it legal let's make it mandatory
A "final solution" for all of humanity
We'll be the last generation and end the insanity
Don't breed! Don't breed!
That's the last thing that we need,
It's just another mouth to feed
Don't breed! Don't breed
The next generation is fucked up already
Mass sterilization before they reach puberty
I don't want my tax dollars paying for pregnancies
It's more cost effective to pay for vasectomies
Don't breed! Don't breed!
That's the last thing that we need,
It's just another mouth to feed
Don't breed! Don't breed
Don't breed! Don't breed!
That's the last thing that we need,
It's just another mouth to feed
Don't breed! Don't breed
It's not just a choice it's a responsibility
Let's not just keep it legal let's make it mandatory
A "final solution" for all of humanity
We'll be the last generation and end the insanity
