"Part Of The Problem"

Visit "[Part Of The Problem](#)" on MotoLyrics.com

part of the problem
not part of the solution
dont wanna think about it
i can't see any conclusion
part of the problem
not part of your solution
dont wanna think about it
dont care about your revolution
i just wanna drink and fuck
i just wanna have some fun
i just wanna be number one
i just want a punk rock girl
my brain is in a whirl
i just wanna rule the world
part of the problem
never will be a solution
dont wanna think about it
end up in an institution
part of the problem
never will be a solution
dont wanna think about it
its all just mental pollution
i dont care i dont know why
dont wanna live dont wanna die
i just wanna hang out and get high
i dont know my right from wrong
i just wanna sing this song
i know i wont be here too long
part of the problem
not part of the solution
dont wanna think about it
i dont care about the constitution
part of the problem
never will be a solution
dont wanna think about it
dont tell me bout the state of the union
