I hope tomorrow will bring better you, better me  
I know that we'll show this world we got more we could  
be  
So you should never give up on your hopes and your  
dreams  
You gotta get up, get out, get into it, get it on to be  
strong

If we try we can fly to a whole another place  
All we need is relief and a smile on our face  
We can go anywhere we want, any road we decide to  
take  
And we're never, never, never too far from tomorrow,  
today

If tomorrow is light in a place where there's no home  
Then know that now is the time to have faith in us all  
You know we're all in this world and we all can belong  
We gotta get up, get out, get over it, get it on to be  
strong

If we try we can fly to a place in the sun  
All we need is precious dreams and a friend we can  
trust  
We can go anywhere we want, any road we can take  
And we're never too far from tomorrow, today

Everybody say tomorrow is just for us to share  
And we're gonna send our message of love out  
everywhere  
There's a promise of love tomorrow has  
Something special and it's something we know will last  
and last

'Cause we're never far away, never  
One thing I can always be sure of  
Far away, no never  
The promise of today

If we try we can fly to a whole another place  
All we need is relief and a smile on our face  
We can go anywhere we want, any road we decide to

take  
And we're never, never, never too far from tomorrow,  
today

Everybody say tomorrow is just for us to share  
And we're gonna send our message of love out  
everywhere  
There's a promise of love tomorrow has  
Something special and it's something we know will last  
and last

Everybody say tomorrow is just for us to share  
And we're gonna send our message of love out  
everywhere  
There's a promise of love tomorrow has  
Something special and it's something we know will last  
and last

'Cause we're never far away, never  
One thing I can always be sure of  
Far away, no never  
The promise of today
