Baby, I just want you to understand  
Just exactly how you make me feel

Oh, yeah  
I wanna feel you next to me

Time after time when I'm feeling low  
Something inside of me, let's me know  
It's alright, love's on my side  
When the world seems a lonely place  
I've got a dream that won't leave a trace  
Of the blues, I just think of you

Baby I know  
I got a real thing here by my side  
Someone who needs me, holding me tight  
And these special feelings, won't ever fade  
'Cause I knew, I knew from the start  
You put a move on my heart

Baby our love's like a melody  
Playing for us in the sweetest key  
You could find the music of life  
And when we touch, there's the warmest glow  
Heating the passion that Heaven knows  
Is a dream, just for you, you and me

And baby I know  
I got a real thing, the love of my life  
Someone who needs me, and he fills me with pride  
Baby now, now and forever we'll never part  
'Cause you're the world to me  
You put a move on my heart

I got a real love, yes I do  
Hey you're someone, baby, you're someone, baby  
You're someone that needs a true love  
And these, these special feelings, time can't erase  
Baby believe me, this isn't dreaming  
Sugar, I knew, I knew from the start

You put a move on me

Oh, you got through to my  
Oh yeah  
You got through to my heart, baby

Baby, can't you see  
You and I were meant to be  
Hold me, love me  
Hold me baby  
Put your hand in mine  
Love me till the end of time  
Hold me, love me  
Hold me baby  
And don't let go

Baby can't you see  
You and I were meant to be  
Hold me, love me  
I want you to touch me baby  
Put your hand in mine  
Love me till the end of time  
Hold me, love me

I want you  
Right here, right now  
Lay by my side, sugar  
Thrill me tonight  
I wanna feel you in my arms baby  
Oh, and you know what I love when you're loving me  
Come closer  
I wanna feel your body pressed against mine

Baby can't you see  
You and I were meant to be  
Hold me, love me  
Put your hand in mine  
Love me till the end of time  
Hold me, love me
