I found all these pieces  
A puzzle in my head  
Something seems so different  
From what I thought I had  
I can't figure this one  
Pulling one from two  
Snap it all together  
It's what I'm trying to do

Lost again  
Pull for the corners  
Make an edge  
Fill up the center  
Not so simple  
This round  
So many pieces  
I still haven't found

I get close  
The construction falls in  
And all the pieces  
All the pieces  
Are back  
Are back on the ground again

Frustration weighs a load  
And I can't pick it up  
And now there is more puzzle  
For me to fuck up

I can't see it [x2]  
I can't breathe  
I can't see it [x2]  
And I can't breathe

Lost again [x2]

I'll find some way  
To hold it all together  
Define the lines  
And call them two together  
Define the lines

And call them two together

Found again [x4]
