The shame is calling [x2]
It's been calling my name
No I said not today

And I decide
To fall off that line

The shame is calling [x2]
It's been calling my name
No I said not today [x2]

And I decide

Harness up everyday
Been this way every day from that point
Harness up everyday
Believing every word you say

And I decide
To fall off that line

And I think I've lost you now
Show me places I don't want to see
It's a power I can't contain
Keeps me scared almost every day

Falling, I'm falling [x2]

Harness up everyday
Been this way every day from that point
Harness up everyday
Believing every word you say

And I decide
To fall off that line
And I decide

Falling, I'm falling [x2]
