My body rests in a dark chamber  
As I am receiving final farewells  
A saddened silence fills the air  
The smell of flowers, the smell of death  
The latch is opened, my skin reflects the light  
A short prayer is recited in my honour  
Some take a step forward, their stares descend  
Looks of deception, looks of despair  
Some are faceless, some are caught in the moment  
Communication at light speed occurs  
faster than words can be expressed  
One-way telepathy provides the living souls  
a sense of presence when left alone  
A mental sketch is tattooed on their minds  
time to say their "adieux" arrives  
My vessel sealed, a cold breeze strikes the world  
beyond  
I am imprisoned from the world of light  
Some induce tears, hostage to emotion  
Looking from above, I can feel their pain  
... I will guide  
Purity resists, faith will overcome  
... I survive  
They forgive my sins, I can feel the peace  
... Of my life  
Looking through their souls  
Timeless sense of loss, overtaking thee  
... I will guide  
With a mere remorse, they will call to me  
... I survive  
Tell the secrets of an unforgotten past  
... Of my life  
Looking through my soul...  
Voiceless.. but present...  
Some can feel it, some ignore the forces  
As I descend into the depths of goodbyes  
The raining earth is bestowed upon my being  
As I watch over and comfort thee  
A last prayer in unison begins  
Forever lasting, words do not die  
Priceless balance  
"You feel I have abandoned you, but it is you who left

me behind"
