I wage a war inside my mind  
Too late to take it back  
I'm looking for the end  
Controlled by pain inside  
I battle with open visor  
For this world in vain  
I kill in bloody chaos  
All of my enemies

I'm full of despair  
Surrounded by eyes of hate  
I never lose my might  
My splendour will not decried

I've got the power to destroy  
The symbols of hypocrisy  
I try to find my path  
And smashed'em all away  
I'm ready to attack  
I resist so I'm free  
You will never break me down

Because I live to win

I'm full of despair  
Surrounded by eyes of hate  
I never lose my might  
My splendour will not decried

To walk the path which sets me free  
There's no way out!  
I'd rather die  
Than be like you  
Over the edge  
Never break through

I struggle to feel my selfish heart  
There's no way out!

From genocide  
Fire shall come  
I'm one to blame  
I will forever remain
