(lyrics: Les)

I'm fire, darkness disappeared in my eyes  
I'm the son of hidden root of life  
Sons of the earth, listen to your teachers  
Sons of the fire who came from the deepest  
Darkness...

Son of fire

I'm their leading spirit and guide  
When I begin my deed I'll build all  
For effigy of the ancient circles

Of non-passing days

Fiery rotating gale  
Will fulfil its mission in rotary move  
Like a lightning pierce the fiery clouds  
Son of fire

Here's dark space, descendant of the fire of truth  
Since now let it be eternal darkness  
Only fire, messenger of the ancient fathers last  
Only fire...
