### "Already Taken"

Every night up in the club getting money with the thugs  
thought I'd never fall in love (what what)  
Then there was you (what what)  
And I don't wanna be a player no more  
Every night in the club trickin with a different girl  
thought I'd never fall in love (what what)  
Then I met you (what what)  
Girl you changed my mind

Walk up in the club  
Saw her in the club  
At first sight I fell in love  
I'm not supposed to be falling in love  
Cause I'm a hustler and a player  
But she has the baddest body to me  
Prettiest eyes I ever did see  
Her smile had me going as soon as she did it  
Cause shawty got a booty and man I gotta hit it  
Lil' mama doing her thing and I love it  
On the phone making the swing and I love it  
Get close and she don't mind when I rub it  
And I can hit it when I want it

She might be my lover  
She makes me want no other  
She don't care if I go to the strip club  
She wanna go too  
I never met a girl like you that makes me want to settle  
down  
Every night up in the club getting money with the thugs  
thought I'd never fall in love (what what)  
Then there was you (what what)  
And I don't wanna be a player no more  
Every night in the club trickin with a different girl  
thought I'd never fall in love (what what)  
Then I met you (what what)  
Girl you changed my mind

Imma spend my money on her  
Pop champagne in the club with her

Hit the mall and take her shopping  
I don't know, maybe some diamonds for her  
Cause she deserves a real balla in her life  
And I'm that man  
So if you feel me ladies  
Let me see your hands

She might be my lover  
She makes me want no other  
She don't care if I go to the strip club  
She wanna go too  
I never met a girl like you that makes me want to settle  
down  
Every night up in the club getting money with the thugs  
thought I'd never fall in love (what what)  
Then there was you (what what)  
And I don't wanna be a player no more  
Every night in the club trickin with a different girl  
thought I'd never fall in love (what what)  
Then I met you (what what)  
Girl you changed my mind

Cause none of these chicks can fuck with my baby  
None of these chicks can fuck with my baby  
And none of these chicks can fuck with my baby  
Fuck with my baby, fuck with my baby  
None of these chicks can fuck with my baby  
None of these chicks can fuck with my baby  
None of these chicks can fuck with my baby  
Fuck with my baby, fuck with my baby

Every night up in the club getting money with the thugs  
thought I'd never fall in love (what what)  
Then there was you (what what)  
And I don't wanna be a player no more  
Every night in the club trickin with a different girl  
thought I'd never fall in love (what what)  
Then I met you (what what)  
Girl you changed my mind
