

R. Kelly "Country Girl"

Visit "[Country Girl](#)" on MotoLyrics.com

She was a country girl from Clebourne, Texas
In a big city and she like my necklace
So we started talking while we took a ride
In a big pick-up truck and my hat was to the side.
She was a country girl from the class of '96
A big booty with some big ol' country tits
A country name with some country attitude
Say "yes ma'am" but at times she's kinda rude.
A daddy's girl so I had to watch my ass.
6 three Mr. Hill would whoop my ass.
We can't kick it I'm a city kid
Imagine what would happen if he knew what we did
(What we did)

-[Chorus]-

I fell in love with a country girl
A city kid in a different world
I fell in love with a country girl
A city kid in a different world
I fell in love with a country girl
A city kid in a different world
I fell in love with a country girl
A city kid in a different world

She likes country livin' and acoustic guitars
And Kenny Chesney and country bars
And Cadillac's and I couldn't relate
I'm just a concrete kid on a country date
And her dad hated me... oh I knew it.
He didn't like my tattoos, pierced ears, and black
music.

We still cow-tippin' and trippin'
With that brush papa shirt lit back cause she was
pimpin'
She was a country girl home cookin' and grubbin'
Aint used to my style big limos and clubbin'
A city kid and I'm doin' my thang
I like an old country girl this is how I sing.

-[Chorus]-

I fell in love with a country girl
A city kid in a different world

I fell in love with a country girl
A city kid in a different world
I fell in love with a country girl
A city kid in a different world
I fell in love with a country girl
A city kid in a different world

A country girl cut off jeans and lolly pops
Tequila shots, tube tops and liquor stops
A country girl with them country ways
Livin' big city nights
But them country days
A country girl don't understand thuggin
A country girl tractors and beer chuggin
A country girl pig-tails and care-free
No direct dish just channel 3
(Come on, this the only channel you have?)

-[Chorus]-

I fell in love with a country girl
A city kid in a different world
I fell in love with a country girl
A city kid in a different world
I fell in love with a country girl
A city kid in a different world
I fell in love with a country girl
A city kid in a different world

Country Girls taste like chicken...
