This go out to all you non-believin muthafuckas out there

Thought a nigga was gon' fall off

Peep it

A lotta muthafuckas say I fell off

Say Fesu lyrics went soft, say I'm jackin off

But you don't know me

I grew up in Acres Homes, then I moved to GP

Purchased some Mars, then my Nuts got big, real big

Then my dick got real hard

Dopefiends had to pay

Crumblin for papers, where there's a will there gots to be a way

Hey, payday, payday, hoes screamin mayday

This is my Sabbath, so I fuck through sunday

And never let my shit bend

Yeah, huh, I'm fallin off the deep end

See, wack muthafuckas say I slipped

Bust a lotta hoes in the mouth last year for talkin lip

Threw them white boy Nikes off my feet, put on Ewings

Cause in the 'Point, hoe, this is what I'm doing

Rockin off breakbeats

And cuttin up sheet rock for them geek freaks

Fesu had to lay low

For about 12 months I went incognito

But now I'm back, bro, yeah, I'm down with Death Row

But this a Greenspoint show

And this is how we kick it fuck you non-believers

You hoes just dick-teasers

Him ain't the brother you should get with

Be glad your brother wrote another hit

But what you start, you gotta end

Fool, I'm fallin off the deep end

I guess I gotta suck my own dick to prove I can make a hit

Aw shit, I'm 'bout to have a fuckin fit

Fuck yeah, I'm local

So deejay, spin my instrumental, them hoes don't play

my vocal
A nigga had to jack a groove
Just to get his shit played cause my dreads ain't got a
fade
Cause when my records were gettin played
I wasn't rich, hell naw, I didn't have it made
Fell in love with this bitch back in '86
The only feelings I got her suckin my nigga's dick
I don't trust a muthafucka
Or his sister or his brother or his crack-smokin uncle
I can't stand them white folks, I cannot stress it enough
By puttin your ass in some handcuffs
You wouldn't worry till I started makin money
But I can't be faded, muthafucka, I'm down with the 20

Yeah
And I'm fallin off the deep end

TK
Kick it
