Baby, I have somethin' that I wanna ask you
So sit back and listen
Hey, Mr. Lovin', we are gathered here
To join each other hand in hand
No more playin' house now
'Cause I wanna make it real, do you understand

To have and to hold, mm, hmm
Until death do us part
No one, no one could ever
Interrupt the beats of our hearts

'Cause this is gonna last
Forever and ever and ever and ever
(Mmm, hmm)
And ever and ever and ever and ever
(This is gonna last forever)
Forever and ever and ever and ever
(Ooh)
And ever and ever and ever and ever

Now there's no one here to speak out
And interrupt this ceremony, oh babe, yeah
All you gotta do is say
Say that you love me and we will walk

And we walk down the aisle
Watchin' people smile
Flowers are everywhere
(Everywhere)
Nothin' else can compare

Girl, you've got the kind of love
That makes a man like me wanna settle down
A picket fence and a house, yeah

Forever and ever and ever and ever
(Forever, ever)
And ever and ever and ever and ever
(And ever, ooh, yeah)

Forever and ever and ever and ever

(Ooh, ooh)
And ever and ever and ever and ever
(Girl, I'm down in my knees)

So what's it gonna be, what's it gonna be
What's it gonna be, what's it gonna be
(Talk to me, baby)
What's it gonna be, what's it gonna be
(Yeah)

What's it gonna be?
(Two words, yeah, yeah)
What's it gonna be?

Baby, you and me, baby, you and me
(And it's you and me)
Baby, you and me, baby, you and me
Baby, you and me, baby, you and me
(Ooh, hoo, hoo, hoo)

Forever and ever and ever and ever
And ever and ever and ever and ever
Forever and ever and ever and ever
And ever and ever and ever and ever

Forever ever and ever and ever and ever
And ever and ever and ever and ever
Forever and ever and ever and ever
And ever and ever and ever and ever

Forever and ever and ever and ever
And ever and ever and ever and ever
Forever and ever and ever and ever
And ever and ever and ever and ever

Forever and ever and ever and ever
And ever and ever and ever and ever
Forever and ever and ever and ever
And ever and ever and ever and ever
