Baby, I've just been sitting here thinking
How blessed I am to have someone like you in my life
And I'm so excited, so, so excited about
Being with you for the rest of my life, listen

Looking at all these hand
Damn, I use to be a lonely man
Could never understand
Why I had no one to take my hand

But then the weather changed
Mother Nature brought the sun my way
Now girl, you're who I am
And I am you for the rest of my days

How the sun comes up in the early morning time
Girl, I vowed to be forever loving you rain or shine
How the moon takes on this so romantic globe
I'll be lovin' you forever more

Now I used to think that I would never
Have a serious relationship
Always praying for that one to come along
Then give me what I miss

But now those thoughts are no more
Every since you came into my life
It's like Heaven opened up it's doors
Showered down on me the perfect wife

How the sun comes up in the early morning time
Girl, I vowed to be forever loving you rain or shine
How the moon takes on this so romantic globe
I'll be lovin' you forever more

Baby, now our house, our house is a home
The car we own, what's mine is yours
The keys to the door
My family, my family, my friend, my friends
The Church we belong together, Heaven drum say
Our house is a home
The car we own, what's mine is yours

The keys to the door
My family, my family, my friend, my friends
The Church we belong together and it's on

How the sun comes up in the early morning time
Girl, I vowed to be forever loving you rain or shine
How the moon takes us on this so romantic globe
I'll be lovin' you forever more
