Baby, we both just sittin' here
We need to get somewhere
Private
Just you and me
Listen

It's the middle of the night
And we're both just sittin' here
I'm checkin' out your body
The hot shorts and tanks you wear
Make me wanna do somethin'
Freaky to you my babe
Gotta let me know somethin'
'Cause I need to know right here

We need to get somewhere
(Yea)
Where we can be alone
(Alone)
Somebody's at my crib
(That's right)
And you got folks at home
So can we, get up

Can we get up on a room
(Ohh)
(Get up on a room)
Baby just me and you
(Baby me and you)
I'll go there on you
(I'll go there on you)
If we get up on this room
(On the room)

Bubble bath
You and me, chillin' in a tub, babe
I'm gonna wash your body, babe
(Hmm)
And you're gonna wash my body, babe
(Gonna wash my body)
All I wanna do is drive you crazy
(Yea, babe, drive you crazy)

Can we

Can we get up on a room
(Ohh ooo)
(Get up on a room)
Baby just me and you
(Me and you, babe)
I'll go there on you
(I'm gonna go there on you)
If we get up on this room
(Baby, how)

Break it down
Throw your underwear on the wall
(Break it down, break it down, break it down)
Whose the greatest lover of them all?
(Break it down, break it down, break it down)
Who makes your love come down like waterfalls?
(Break it down, break it down, break it down)
I thought you knew
Come on baby, let's do this
(Yoodle eh e ooh)

Can we get up on
(Can we get up on a room)
Hey, hey
(Baby just me and you)
You and me, chillin' in a suite somewhere
I'll go there on you
(I'm gonna go there on you)
If we get up on this room
(I promise to listen babe)

(Can we get up on a room)
You and me chillin' on the fifty fifth floor
(Baby just me and you)
Right before we bump
We put the sign outside the door

The more we going up and down
(I'll go there on you)
The more we wantin' more
It's getting hot in this car
(If we get up on this room)
So the hell we waiting for can we can we get
(Can we get up on a room)
Can we, Ooh

Can we get up on, can we get up on a room
(Baby just me and you)
Can we get up on, Can we get up on a room

(I'll go there on you)
Can we get up on, Can we get up on a room
(If we get up on this room)
Yea

(Can we get up on a room)
You don't have to go far
To get a piece of me
(Baby just me and you)
You wait in the car
While I go get the keys

(I'll go there on you)
Double lock the door for complete privacy
(And if we get up on this room)
No room service baby 'cuz
(Can we get up on a room)
You will be the feast, can't we
(Can't we get up on the room)
(Baby just me and you)

We'll cuddle up with each other babe
(I'll go there on you)
Yes we will
And I'll go there on this chair, yea, yea
(If we get up on this room)

Can we get up on a room
(Yoodle eh e ooh)
(Can we get up on a room)
Baby just me and you
(Yoodle eh e ooh)
(Baby me and you)
I'll go there on you
(Yoodle eh e ooh)
(I'll go there on you
If we get up on this room
(Yoodle eh e ooh)
(On a room)

Can we get up on a room
(Yoodle eh e ooh)
(Can we get up on a room)
Baby just me and you
