We need your love, to shower down
In our hearts, hear us now
We need some answers

I know you're hurting, I hear you crying
But come tomorrow,
There's a place you can go
On the blue sky, hear the choir sing
Feel the power, of miracle,
Healing both, you and me
Yeah, yeah, yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah, yeah

We need the world, call an angel
Show us a sign, let us know
Give us all, we'r waiting on you
To give us friends, to carry on
Help us up, and take us home now

I know you're hurting, I hear you crying
But come tomorrow,
There's a place you can go
On the blue sky, hear the choir sing
Feel the power, of miracle,
Healing both, you and me

I know you're hurting, I hear you crying
But come tomorrow,
There's a place you can go
On the blue sky, hear the choir sing
Feel the power, of a miracle,
Healing both, you and me
I know you're hurting, I hear you crying
But come tomorrow,
There's a place you can go
On the blue sky, hear the choir sing
Feel the power, of miracle,
Healing both, know you're worthy.
