Ft. Taj Jackson

Baby don't speak
Let your body tell me
Everything that you want and you need
It's the language of love
Let your heart beat
Tell me everything
That you want and you need
Cause it's the language
The language of love
Language of love

Your expressions are saying what I wanna hear
Like baby will you spend the night
Let's go to the special place you always take me to
The signal I'm whispering inside your ear
Got you feeling butterflies
Cause you're anticipating the things I'ma do to you

She's swinging her hair
That's sign number one
Doing the dance for me
Like I'm that song in the club
And she's putting her hair
Where she wants me to start from
Only what I wanna hear you say

Baby don't speak
Let your body tell me
Everything that you want and you need
It's the language of love
Let your heart beat
Tell me everything
That you want and you need
Cause it's the language
The language of love
Language of love
The language of love
Softly, you're killing me the pillow
She's finding me funny

But shaking like it's 30 degrees below
So I gotta keep her warm
Like some hot tea
Keep you up all night
Like some coffee
Take you on a ride
We'll be sitting in the backseat
On my Bentley
Take you anywhere you wanna go

She's breathing hard
That's sign number two
Doesn't matter where we are
Long as I'm with you
But the way you communicate
When I do what you like
Only what I wanna hear you say

Baby don't speak
Let your body tell me
Everything that you want and you need
It's the language of love
Let your heart beat
Tell me everything
That you want and you need
Cause it's the language
The language of love
Language of love
The language of love
