Yeah whoa~  
I dropped a tear in the ocean eh  
And when you find it  
That's the day I'll stop loving you  
C'mon

If I have only one day on this earth whoa  
I'll live tonight, I'll spend tonight, make love tonight  
I'll sleep tonight with you by my side  
And if I have only one day on this earth whoa  
Then I'll laugh tonight, I'll cry tonight, I'll make it right  
Spend the rest of my time with you by my side

If my time was slipping away  
And I didn't have long to live  
I'd appreciate the time we've shared  
And I won't want you to shed a tear  
If the road was coming to an end  
And I couldn't turn this car around  
I know faith will get us, get us through the wind  
And I'll be somewhere on heaven's ground

If I have only one day on this earth whoa  
I'll live tonight, I'll spend tonight, make love tonight  
I'll sleep tonight with you by my side  
And if I have only one day on this earth whoa  
Then I'll laugh tonight, I'll cry tonight, I'll make it right  
Spend the rest of my time with you by my side

Now if this life gets the best of me  
And all the fame starts to fade away  
Just know our love made history  
And know that life is a better place  
If there's nothing on the television  
That the world was gonna end today  
Girl I'll be on a mission  
To love you the rest of the night away  
If I had one..

If I have only one day on this earth whoa  
I'll live tonight, I'll spend tonight, make love tonight  
I'll sleep tonight with you by my side

and if I have only one day on this earth whoa  
Then I'll laugh tonight, I'll cry tonight, I'll make it right  
Spend the rest of my time with you by my side

We could see the sunrise  
We could see the stars bliss  
Make love in the moonlight  
I'll make you my bucketless  
We gone shop like no tomorrow  
Live it up like no tomorrow  
Pop champagne like no tomorrow  
In the club like no tomorrow

You can have anything you like  
You're my girl I'm gonna treat you right  
And when I shine you shine  
So have fun you only get one night  
And they all hating you  
Diamond on you're face you behind and back  
They wanna take your place  
You can see no never ever  
We gone run forever  
We gone be together  
Til forever and ever

If I have only one day on this earth whoa  
I'll live tonight, I'll spend tonight, make love tonight  
I'll sleep tonight with you by my side  
and If I have only one day on this earth whoa  
then I'll laugh tonight, I'll cry tonight, I'll make it right  
spend the rest of my time with you by my side
