Ladies, gentlemen, gangstas and killers
I'd like to welcome y'all to this Terror Squad thriller
Staring me Joe Crack the realest
and ma you can get a seat, forget what ya friends have
seen
They tell you please he's a celebrity
He ain't tryin' to start something
He is into menage crushin'
But she ain't tryin' hear nothin' fears nothin'
But her impulse is scared money don't make nothing
Plus she love the way the cashmere touch 'em
How the lights bounce off the ice
This dude here is frontin
But you love it though
Everybody in here know
A million niggaz tried to holla
A million niggaz wasn't Joe
I see you across the club the way you move ya body
slow motion wit me
Dip it low and put ya body in the roles with me

Forget ya problems and sit back and roll through the
tolls with me
Now listen to the R flow with me

[Chorus]

[R. Kelly]

Now we don't need no room keys because we up off in
