

R. Kelly "Somethings Never Change"

Visit "[Somethings Never Change](#)" on MotoLyrics.com

Some people may say
that some people I love you
and, some people may find
that some people weren't true
and some people may vow
that they'll never part
and people promise people
that they will never break their hearts
oooo-oooh
but when it comes to us
I thank heaven up above
cos' we just keep on lovin'
we just keep on kissin'
we just keep on huggin'
we just keep on waitin'
boy I tell you

-chorus
somethings never change
like pictures in a frame
and the flowers bloom in may
for as long as I am breathing my heart will always stay
I tell you somethings never change
in the springtime it will rain
and the world going round and round
there's nothing new
and thats how I feel about you

Now, some people believe
that, some people will be there
and, some poeple came to see
that some people didn't care
sooo-ooo-ooome people may think that
they can trust some people
but some people come to find
that the people that they thought they knew they really
dont know know-know-oooh-ooo
when it comes to us (when it comes to us) I thank
heaven up up
cos we keep on lovin'
we just keep on kissin'
we just keep on touchin'

we just keep on waitin'
boy I tell you

(chorus)

(that is how I feel) that is how I feel about you-oooh-ooo
and it'll never change no no
that is how I feel
woah-oooh
ooh-oh-oh-ooooh

some things never change
like the pictures in the frame (in the frame)
and the flowers bloom in may
for as long as I am breathing my heart will surely stay
I tell you

some things never, some things never change
like the pictures in a frame (pictures in a frame)
and the flowers (all of the flowers bloom in may)
for as long as I am breathing my will always stay the
same

some things never change (woah-oooh-ooo change)
in the springtime it will rain (it will surely rain)
and the world going round and round
there's nothing new
till the ????

some things never change
and I place no, one above you babe
because I love you bayyy-beee
ooh-ooo always babe
you be lovin me and I be loving you
some things, some things never change

(fades)
